Argentine side of waterfalls.

Argentine side of waterfalls / FD Shared - Spanish/English-speaking Guide | NP Entrance Fee Included | Minimum: 2 paxs Located inside the Iguazú National Park you will find more than 200 waterfalls, from 30 to 80mts high, which all together are called to be the "Iguazú Falls". The Argentine side of the falls is divided into 3 trails (Upper, inferior and Devils Throat). This tour take you to visit part of the Iguazú National Park. It preserves 67.000 ha. of giant trees, vines and ferns living with multicolored butterflies, birds and other mammals all of them part of the rich local flora and fauna. The park was declared Natural World Heritage in 1984, due to its scenic beauties and the great biological diversity of the subtropical jungle. The famous falls are in the heart of this Park. We start the visit at the Local Museum and continue the tour with the Lower Trail, from where we can see among others, the "Two sisters Falls", the "Bossetti Fall", the "Hidden Fall", a panoramic view of "San Martin island " and the "Union Fall". Later we walk the Upper Trail shifting along walkways located above major falls up to the majestic "San Martin Fall" from where we have a panoramic view of the Brazilian falls. Finally, we go with the Train of the Jungle up to "Devil's Throat" station. From there, after 1,000 meters walk along the catwalks, we come to the spectacular "Devil's Throat", where the Iguazu river speaks with all its strength and the falling water gives the illusion of magic rainbows.

After an 8 km truck ride, we arrive at the Puerto Macuco Base, which is 100 meters away from the Infirmary and Service Station, and 100.meters of stairs ahead is the floating platform where the second part of this ride begins. With motor-boats, we take visitors 6 km through the Canyon of the Iguazu River, until the falls, from these total, 2 km are river rapids. After enjoying the view from the calm side of San Martin Island we sail to the "Tres Mosqueteros" waterfall, at that point, the Brazilian and Argentinean sides and the Devil's Throat can be clearly appreciated. After that, we sail along the shore of the island until we get to the most exciting part where we face the San Martin waterfall, a wonderful and unforgettable experience, for it's the largest waterfall any motor-boat can approach safely.
